DETAILED ACTION

Applicant's amendment and remarks received 03 August 2007 have been fully considered. Claims 12-22 are therefore allowed with the additional limitations included.

Examiner's Statement Of Reasons For Allowance

The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose or reasonably suggest a set of optical connectors having a total internal reflection surface capable of reflecting the radiation of an optical waveguide to an optical element of the first connector and disposed independently of a push fit portion of the set of connectors, where the push fit portion is used to mate, attach and align the set of connectors in addition to the accompanying features of the independent claim and the intervening claims.

Close prior arts of record have been cited and/or relied upon in the previous Office action, mailed 03 April 2007, paper number 200703.

Another close prior art of record is U.S. Patent 7,177,494 to Minardi et al. Minardi et al teaches a total internal reflection surface capable of reflecting an incoming radiation to another optical element. However, Minardi et al fails to teach the two transmission regions to be optical waveguides or connectors which are push fit together.

Another close prior art of record is U.S. Patent 4,176,908 to Wagner. Wagner teaches a transmission section composed of two optical waveguides and optical connector sections capable of reflecting the radiation from one transmission section to the other. However, like Minardi et al, Wagner fails to teach the connectors to be push fit together. Minardi et al teaches the two

sections to be bonded together. Furthermore, Minardi et al does not teach a total internal reflection. Minardi et al only states an at least partially reflective film.

Therefore, claims 12-22 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
